What to do and deadlines			
	WHAT TO DO	Country that must perform the activity	Deadlines
WEB SITE	To be updated by inserting: for each mobility already carried out, the description of the activities carried out; photo; video, etc	FINLAND	Up to next mobility in Finland and until the end of the project in May
INSTAGRAM	 Implement social networks. Doing actions according to the S.E.O. with the aim of reaching at least 1000 members, but even more, as the colleagues said. We suggest that each partner country spread the activated social pages to all the students of their school, with particular attention to Istagram. Implementing social media is a job of great responsibility, as it will lead us to have visibility during the conference. By reaching as many people as possible, even the institutions to which we send the proposal from below (still to be done) will feel more motivated to know our initiative. 	SPAIN + FINLAND	Up to next mobility in Finland and continue until the end of the project in May
